AGENCY PROGRAM COMMENTARY
2003 - 2005

MISSION

The mission of the Office of the Treasurer of the State of Arkansas is guided by the words of Henry Clay who stated, "Government is a trust, and the officers of the government are trustees, both the trust and the trustees are created for the benefit of the people." To fulfill our constitutional and statutory responsibilities as trustees, the State Treasurer's Office shall, in a cost efficient, modern environment, provide the citizens of Arkansas uncompromising safety, operating liquidity, and wealth building yield in collecting, investing and disbursing their money while maintaining, above all, the highest ethical standards.

HISTORY

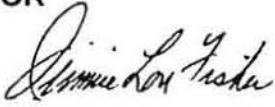

The Constitution of the State of Arkansas, Article 6, provides for the Office of the Treasurer of State, who is elected by the qualified electors of the State.

Arkansas Code Annotated '25-16-601 through '25-16-615, specifies the duties of the Treasurer of State. Those duties are to receive and keep all moneys of the State not expressly required by law to be kept by some other person; to disburse the public money upon warrants drawn upon the Treasurer according to law, and not otherwise; and to keep a just, true and comprehensive account of all moneys received and disbursed in books to be kept for that purpose, in which it shall state from whom moneys have been received and on what account, and to whom and on what account disbursed.

State Treasury Management, as prescribed by *Arkansas Code Annotated '19-3-501 through '19-3-522*, provides for general provisions of State Treasury Management, the State Treasury Management Law, long-term investment and temporary loans to local government.

ORGANIZATION

The Treasurer functions as a bank for the State Government. The office is divided into the following sections: Administrative, Boards, Commissions, General Ledger, Investment Accounting, Receiving, Warrants and local government services.

PROGRAM COMMENTARY

General Operations

Regular Salaries and Personal Services Matching

Following the guidelines set forth in the Governor's Policy Letter, the Treasurer's Office is requesting a 2.7% increase in salaries each year of the biennium.

Extra Help

Treasury is asking no increase for this item and requests the appropriation level for Fiscal 2001 be maintained.

Temporary help is a cost effective means for Treasury staff support during peak processing periods and for special projects. This permits Treasury to insure that the duties and responsibilities of the office are met without an increase in the number of authorized positions.

Operating Expenses

The requested increase is for lease costs on office space.

Operating Expenses reflect the cost associated with the performance of the duties and responsibilities of the office. Treasury continues to strive to minimize increases in operation costs while effectively meeting the responsibilities of the Office. Treasury completes its move to new office space and now has all data processing operations into a single office. This will provide increased efficiency and reduced cost. With the completion of this project the new lease cost will require the following increases. Lease contract FY04, \$42,000 and FY05, \$44,400.

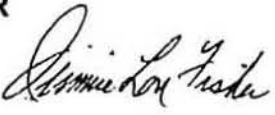

Capital Outlay

Treasury is asking no increase for this item and requests the appropriation level for Fiscal 2003 be maintained.

To properly equip the office due to increased operation and processing requirements, capital expenditures are required.

Data Processing

Treasury is asking for an increase of \$158,400 in Data Processing. The increase requested is directly related to the new charges from Department of Information Services for connectivity, \$4,700, and \$8,500 monthly for internet access for a total of \$156,000.00. On an average day, the Office process deposits of over \$35 million consisting of approximately 15,000 items representing - taxes, fees, and other payments made by the people of Arkansas. To continue to provide modern and effective accounting and investment services for state agencies, data processing must be maintained at the current level. This majority of this appropriation is for information systems operations, including is maintenance, upgrade costs, and purchase of new equipment.
