History and Organization

The purpose of the Division of Child Care and Early Childhood Education is to enhance the coordination of child care and early childhood education programs within the state. This coordination ensures a seamless delivery of service to low-income families and those who are moving from welfare to work.

The Division working with the Arkansas Early Childhood Commission, adopted the following mission statement: "As good stewards of the public trust, we will support and advise the Division by ensuring that all Arkansas children and families have access to a safe, high-quality, developmentally appropriate (nurturing learning) environment (and) by educating and assisting parents, child care providers, and communities to prepare our children for future success."

The Division is comprised of six sections: one regulatory, one compliance, three programmatic and one administrative. The Division currently has 171 budgeted positions in addition to 13 extra help positions. The name of the sections and a brief description of their functions follow:

Child Care Licensing - This is the largest section within the Division with 62 positions. Many of these positions are located in DHHS county offices. Licensing Specialists perform on-site reviews of child care centers in addition to licensed homes and registered homes. This section is also responsible for maintaining the Criminal Records Check System (Act 1198 of 1997) in conjunction with the Arkansas State Police. This system checks the police record of all workers in child care centers, licensed or registered homes.

Compliance - This section works with the programmatic sections of the Division and other appropriate Divisions within the Department to coordinate and track issues dealing with provider fraud, overpayments and audits.

Family Support - This section is the second largest section within the Division with 61 positions. Many of these positions are located in DHHS county offices. This section supports services to Temporary Employment Assistance (TEA), transitional and low-income working families by providing subsidized child care services on a sliding fee basis. Child Care Eligibility Specialists are located regionally across the state.

Special Nutrition Program - This program is comprised of four programs funded by the U.S. Department of Agriculture (USDA) and administered by the state. These programs reimburse centers and sponsors for nutritional meals and snacks served. The programs are the Child & Adult Care Food Program, the Summer Food Service Program for Children, Special Milk and National School Lunch.

Program Development - This activity is the major outreach section of the Division. This section provides a multitude of diverse services designed to improve the quantity and quality of child care services within the state. These services blend funds from state and federal sources.

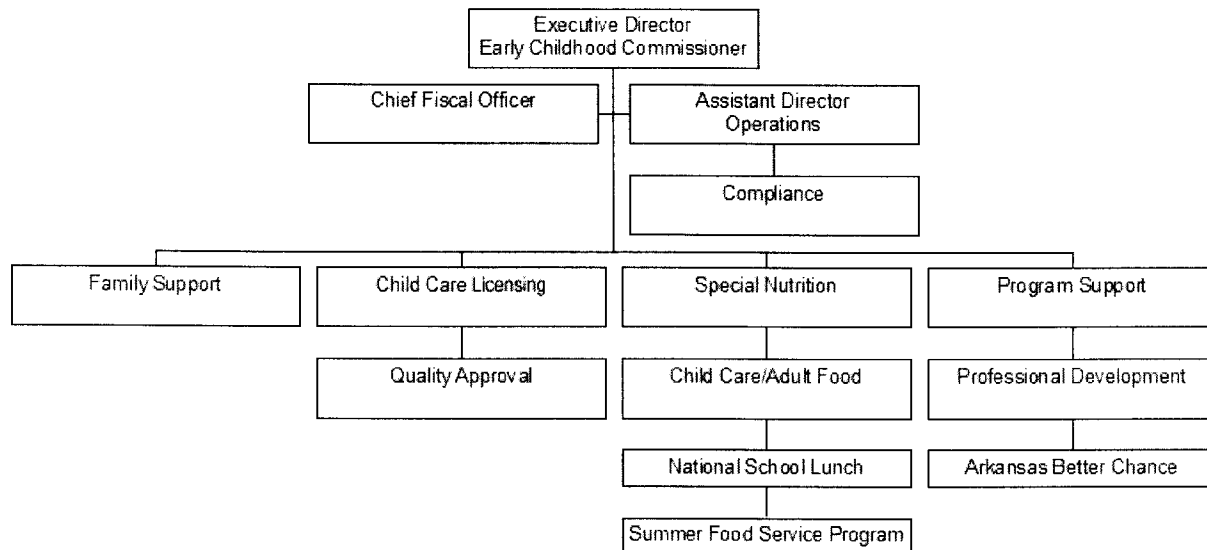

A listing of these services follow:

- ARKANSAS BETTER CHANCE (ABC) - The State's Public Pre-K program
- ENHANCEMENT GRANTS
- TRAINING GRANTS
- CHILD DEVELOPMENT ASSOCIATION (CDA) SCHOLARSHIPS
- TECHNICAL ASSISTANCE TO PROGRAMS
- ARKANSAS CHILD CARE FACILITIES GUARANTEE LOAN FUND
- CHILD CARE FACILITIES FUNDING/COMMUNITY DEVELOPMENT BLOCK GRANT
- ARKANSAS CHILD CARE RESOURCE CENTER
- ACCREDITATION/APPROVAL SYSTEM
- PARENT INFORMATION & CHILD CARE RESOURCE AND REFERRAL SERVICES
- EARLY LITERACY LEARNING IN ARKANSAS (Pre K ELLA)
- KINDERGARTEN READINESS - INDICATORS

The creation of the Division consolidated three (3) existing boards into one. The affected boards were the Child Care Facility Review Board, the Arkansas Early Childhood Commission and the Child Care Provider Training Committee. These review boards were consolidated into a new Arkansas Early Childhood Commission that advises the Division and has regulatory approval for all minimum licensing standards.

The Child Care Appeal Review Committee was established in 1999. This panel reviews appealed adverse action taken by the Child Care Licensing Section against a child care provider and hear any unresolved disputes between that Section and the child care providers regarding: 1) substantial compliance with the published standards; 2) founded licensing complaint; 3) denial of alternative compliance request.

Providers, staff and above all, families, have benefited from these efforts to support working families and school readiness by the consolidation and streamlining of administrative functions within the Division.

Agency Commentary

The Division of Child Care and Early Childhood Education request the following appropriation for the 2007-2009 biennial budget. The change requests are as follows:

For SFY 2008

- For Appropriation 890 \$2,550,000 in federal appropriation
- For Appropriation 896 \$1,463,050 in federal and other appropriation
- For Appropriation 898 \$1,600,000 in General Revenue with appropriation

For SFY 2009

- For Appropriation 890 \$5,291,250 in federal appropriation
- For Appropriation 896 \$1,113,050 in federal and other appropriation
- For Appropriation 898 \$1,600,000 in General Revenue with appropriation.

During Reallocation of Resources in SFY 2006, a position was authorized to assist with managing the increase in grants and contracts mandated through the Arkansas Better Chance for School Success Program. Administrative expense up to 2% has been authorized. The Division is requesting appropriation to continue to utilize this 2% which would include funding of this authorized position.

The Child Care Development Fund state plan includes the provision for a state quality approval program with the use of the Environmental Rating Scales (ERS). These rating scales are nationally accepted standards for assessing quality in early childhood settings. The ERS have been used by the state since the early 90's collecting data with a paper driven approach. The Division will be entering a contract with ERS Data System to implement an information technology system for collecting data regarding the results of the rating scale visits in local early child hood programs. This tool will improve the scoring reliability as well as enhance the time local programs will receive results regarding the visit. The data gathered from the quality assessments will be utilized in the following ways: as a basis for early childhood centers to receive feedback for training/technical assistance and quality improvement; to provide statistics on the Quality Approval program's overall effectiveness; and to measure the overall accuracy and consistency of the reviewers responsible for performing the

assessments (inter-rater reliability checks). The Arkansas Better Chance for School Success Program will pursue the purchase of PC "tablet" hardware that would allow the staff to gather data in the field when conducting local monitoring visits.

The final request is in the Child Care and Adult Food Program which is a federally uncapped funded program included in the Special Nutrition Program (SNP). The number of children receiving free and reduced meals and snacks has increased. The funding has increased by \$1 million over the past biennium. The scope of this program is to provide nutritious meals and snacks for children. In addition, the Unit was awarded a Miscellaneous Federal Grant (MFG). Within this grant, allocation for an additional position and operating expenses was provided. The position will provide support to early education programs in areas of the state to expand when underutilization is identified and work on development of a new database to strengthen efficiency and accountability. A request is being made for continuation of the position and operating expense appropriation.

The division is also requesting State General Revenue with appropriation for \$1,600,000 in both years of the biennium to provide subsidized child care for low-income families.

Funding Sources: PWP - Administration Paying

This appropriation provides administrative support for the Division of Child Care and Early Childhood Education (DCCECE). The purpose of DCCECE is to enhance the coordination of child care and early childhood education programs within Arkansas. The Division was created to accommodate the transfer of the Early Childhood Commission and the administrative component of the Arkansas Better Chance (ABC) Program from the Department of Education. Appropriation: 898 - DHHS-Grants Paying Account

The passage of the Federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996, PL 104-193 established the Child Care Development Fund (CCDF). This fund supports all childcare activities conducted across the State by providing assistance for low-income families and families transitioning off welfare with childcare so they can work or attend training or educational programs. Subsidized childcare is available to eligible parents via the State's day care voucher program with the Division of Child Care and Early Childhood Education. Parents may select any legally operating childcare provider in the State. Childcare providers must meet State basic required health and safety requirements. Included are such requirements as immunizations, building safety and health and safety training. A minimum of four percent (4%) of CCDF funds must be used to improve the quality of childcare. Quality activities include training, grants and loans to providers, and health and safety improvements.

In the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, specific funding is designated for Child Care. Funding received under the Child Care Development Fund by states is in three categories:

- **Mandatory:** Base allocations for states
- **Matching:** Additional available funds if states spend base allocations and provide state match above Maintenance of Effort
- **Discretionary:** Funding designated as the Child Care Development Block Grant (Detailed information can be found in Appropriation 320-Child Care Development Discretionary)

Funding for this appropriation consists of General Revenue (DGF - Department of Human Services Grants Fund Account), Federal Revenue and Other Funding. Federal Revenues include Child Care Development Block Grant funding. Other funding, which is indicated as Various Program Support includes revenues from the Beer Excise Tax (Act 1841 of 2001) which levied an additional 3 percent tax on alcoholic beverages. The Division receives 20% of these additional revenues for subsidized child care for low-income working families. Arkansas Code Annotated §3-7-201(e), which authorizes the taxes imposed on alcoholic beverages, states that the excise tax on beer will not extend past June 30, 2007.

The agency Base Level request for this appropriation is \$30,884,892 for each year of the biennium.

The agency Change Level request includes General Revenue funding of \$1,600,000 each year of the biennium to replace the excise tax on beer due to sunset on June 30, 2007.

The Executive Recommendation provides for Base Level and recommends the continuation of the excise tax on beer into the next biennium.

Analysis of Budget Request

Appropriation: 929 - Chld Care-Treas Pay

Funding Sources: NHS – Cash in Treasury

The Arkansas Child Care Facilities Loan Guarantee Fund was created to provide loan guarantees to assist with the development of new or to expand existing day care facilities with target areas specifically in low income, rural areas of the State that show demonstrated need for child care. Arkansas Code Annotated §20-78-503 created the Arkansas Child Care Facilities Loan Guarantee Trust Fund with initial funds derived from interest income on the investment of state funds. Funds are authorized in \$100,000 annual increments up to a balance of \$350,000. The State Treasurer can replenish the fund when the balance reaches or falls below \$100,000.

The Division of Child Care and Early Childhood Education is authorized to develop and implement necessary rules and regulations to receive, review, and approve applications for loan deficiency guarantee assistance. Revision of a loan guarantee may be approved when it becomes necessary to ensure adequate childcare financing is available. Loan guarantees should be given the following considerations: geographic distribution, community need, community income, with priority given to those communities with the lowest median family income, proof of viable administrative and financial management, and intended licensure of the facility. The Division is required to report the status of the Loan Guarantee Fund to the Legislative Council each October.

Arkansas Code Annotated §20-78-503 designates the Arkansas Child Care Facilities Loan Guarantee Fund as a Cash Fund Account. The Agency is authorized to accept moneys for the Fund from any source in addition to the allocations from the State Treasurer. The fund is a continuing fund and not subject to fiscal year limitations. Interest that has accrued during a fiscal year that is not required to cover loan defaults occurring that fiscal year is made available for nonrefundable grants to child care facilities for start-up, development, training scholarships, or expansion.

The agency Base Level request for this appropriation is \$100,000 for each year of the biennium.

The Executive Recommendation provides for the Agency Request.
