

The State of Arkansas provides a form package on **CD**, called Arkansas Package A, which is similar to the IRS Package X. Package A contains the individual, corporate, and withholding tax forms most commonly used, so that tax preparers can print the forms as needed. The State of Arkansas does not provide bulk quantities of forms to tax preparers.

Package As are provided free of charge; however, there will be a **\$2.00** charge for postage. **Limit 3 per request.**

**NOTE: In tax year 2009, paper packages became available by special request only. If you need a paper Package A, you must submit \$2.00 with your order and a detailed explanation of why you need the paper version. If no explanation is provided, a CD will be sent.**

**NOTE:** All forms contained in the Arkansas Package A can be downloaded from the Revenue Home page at:
