WELCOME AND OPENING REMARKS

Governor Hutchinson opened the meeting by welcoming the members, expressing appreciation for their willingness to serve and explained the focus of the American Rescue Plan Steering Committee.

Governor announced the appointment of Secretary Larry Walther as Chair of the Committee and Secretary Stacy Hurst as Vice Chair of the Committee.

Governor Hutchinson mentioned the unique opportunity the American Rescue Plan presents to the State of Arkansas to address both immediate and long-term needs of the state. The U.S. Department of Treasury has issued federal guidance in the form of the Interim Final Rule. As with the guidance provided following the passage of the CARES Act, it is anticipated Treasury will provide updates and clarification periodically in the weeks and months to follow.

Governor Hutchinson shared his view on the importance of addressing immediate needs such as continuing broadband deployment through the Rural Connect Program, coordinated by the Department of Commerce and continuation of vaccine deployment to further reduce the spread of COVID 19 in the state.

Governor Hutchinson explained the Steering Committee would serve as an advisory body to the Governor. The Governor addressed questions regarding the scope of work and focus of the committee, closing his remarks by again thanking members of the committee for their willingness to serve and that he looks forward to the work ahead.
