1. IGS Connect System Requirements

The Arkansas IGS Connect system is designed for use by the vast majority of computer users with little or no changes to the computer environment. The requirements that are mentioned below are common computer elements that should be present on most machines.

Operating System

IGS Connect is designed for both of the more common computer operating systems - Windows and Macintosh. It has not been tested and is not supported on other operating systems such as Linux and UNIX. Users accessing IGS Connect from a Macintosh environment are required to have MacOS 7.5 or higher. Windows users are required to have an operating system that is Windows XP or higher.

Internet Connection

IGS Connect is a web site designed for access via the Internet. For purpose of accessing IGS Connect, minimum connection is by modem. For those using a modem, recommended connection speed is at least 33.6 kbps (kilobits per second). Internet connections "faster" than modem, i.e., cable, DSL, T1, wireless improve speed at which the system operates. In an office environment, there may already be an Internet connection, but if unsure, contact the network administrator.

Web Browser

This system was designed to be compatible with common, up-to-date web browsers including: Internet Explorer V.7 and above, Firefox, Safari, and Opera.

Adobe Acrobat Reader

Adobe Acrobat Reader is used to view PDF (Portable Document Format, .pdf) documents. The IGS Connect system automatically generates grant documents in PDF format using information that is saved into various narrative and budget pages by the user. Using Adobe Acrobat Reader, you can view, print, or save PDF documents. Adobe Acrobat Reader can be downloaded at www.adobe.com.

Microsoft Word Viewer

IGS Connect has a combination of both Microsoft Word (.doc, .docx) and PDF documents. Microsoft Word increases IGS Connect's formatting options and reduces the amount of empty space on printed pages. If Microsoft Word is not installed on your computer, Microsoft Word Viewer is a free alternative program that will allow you to view, print and copy Microsoft Word documents. It is available for download at www.microsoft.com.

2. System Access

Protecting Confidential/Sensitive Information

IGS policy requires that confidential/sensitive information be safeguarded. All attachments submitted via IGS Connect must not contain confidential/sensitive information. Before attachments are uploaded, sensitive information must be redacted; examples include social security numbers (even if it is only the last 4 digits of an SSN), items such as bank account numbers (generally found at the bottom of a check), credit card data, and/or any other confidential/sensitive data that is not required to support the grants-management process.

Obtaining an IGS Connect Login

In order to access IGS Connect, the grantee (Authorized Official or Acting Authorized Official) must have an assigned login consisting of a username and password. There are two ways for a grantee to obtain a login:

1.) Registering as the initial **Authorized Official** of a new organization within the IGS Connect system

Or

2.) Being granted an **Acting Authorized Official** account by an established **Authorized Official** for a pre-existing organization within the IGS Connect system

Authorized Official

For a new user and their respective organization to be created within the IGS Connect system, the designated head of each organization will need to register and be assigned as the **Authorized Official** role. This person may request access to IGS Connect using the **New User?** link on the IGS Connect login page(see the **Login Page** section in this manual).

They will need to fill in the required profile information, then wait for an IGS Connect system administrator to activate the account and create their requested organization (or add them to a pre-existing organization); a confirmation e-mail will be sent to the provided email address once this has occurred.

Other Users (Acting Authorized Officials)

Once an organization's Authorized Official has access, the user can then add additional users to their organization under the **Acting Authorized Official** role.

Authorized Official(s) responsibilities:

- Adding users to their organization
- Activating, assigning, and deactivating users to/from their organization and related documents
- Completing and submitting relevant grant applications

3. Login Page

Accessing IGS Connect

To access IGS Connect, enter IGSConnect.Arkansas.gov into the address bar of a supported web browser.

Note: IGS Connect does not save the username and password. This option *may* be available on your browser.

DFA Arkansas Department of Finance and Administration

IGS CONNECT
Intergovernmental Services

System Login Portal

Welcome to the IGS CONNECT System...

Welcome to the Online Grants Management System - IGS CONNECT

Because this is a new online management system, all organizations will need to register with the system. **Steps to Get Started:**

- The initial registration for your organization must be completed by an Authorized Official (AO) for the organization; e.g. Program Director
- Once the AO registers the organization, they will receive an email *Notification of Access Approval* from the online systems administrator
- From that point, the AO can designate access to your organizational account to other staff members as they see appropriate
- Once your organization is registered in the system, you can apply for grants and complete/submit reports

To visit our official website click the following link: <http://www.dfa.arkansas.gov/>

Bookmark/Favorites

IGS Connect may be bookmarked, or added, to the favorites menu

After accessing the IGS Connect Login page, on the Internet Explorer (IE) menu bar:

1. Select **Favorites**
2. Select **Add to Favorites**
3. Rename the site, if desired
4. Select **Add**

Adding IGS Connect to List of Trusted Sites

To avoid various browser-related restrictions unnecessarily placed on IGS Connect, make the following changes to the web browser.

If using Internet Explorer, we recommend adding the IGS Connect Home page to the list of trusted sites as follows:

1. Select **Tools**
2. Select **Internet Options**
3. Select **Security**
4. Select **Trusted Sites**
5. Select **Sites**
6. In **Add this website to the zone:** enter: <https://IGSConnect.Arkansas.gov>
7. Select **Add**
8. Select **Close**
9. Select **OK**

4. My Home

The **My Home** page is the next page seen after logging into IGS Connect.

IGS Connect currently features two available tabs on the top of the screen – **My Home** and **My Applications**.

View Available Proposals does not appear on the **My Home** page unless a user and their organization meet the criteria to initiate an application that is being offered by IGS.

Likewise, when there are no active tasks to perform, **My Tasks** does not appear on the **My Home** page. There may be times when only **My Inbox** (e-mail/messages) appears on the Home page.

The screenshot shows the IGS Connect interface. At the top left is the DFA Arkansas Department of Finance and Administration logo. At the top right is the IGS CONNECT Intergovernmental Services logo. Below the logos are two tabs: 'My Home' (selected) and 'My Applications'. To the right of the tabs are links for 'My Organization(s)', 'My Profile', and 'Logout', along with a 'SHOW HELP' button. A welcome message from AGATE says 'Welcome Jesse' and identifies him as an Authorized Official with a 'Change My Picture' link. An 'Instructions' section lists: 'Select the SHOW HELP button above for detailed instructions on the following.' followed by a bulleted list: '> Applying for an Opportunity', '> Using System Messages', '> Understanding your Tasks', and '> Managing your awarded grant'. Below this is the text 'Hello Jesse, please choose an option below.' Three main sections are visible: 1. 'View Available Proposals' with a yellow arrow icon, stating 'You have 1 opportunities available.' and 'Select the View Opportunities button below to see what is available to your organization.' with a 'VIEW OPPORTUNITIES' button. 2. 'My Inbox' with a yellow envelope icon, stating 'You have 22 new messages.' and 'Select the Open My Inbox button below to open your system message inbox.' with an 'OPEN MY INBOX' button. 3. 'My Tasks' with a yellow checkmark icon, stating 'You have 2 new tasks.' and 'You have 0 tasks that are critical.' and 'Select the Open My Tasks button below to view your active tasks.' with an 'OPEN MY TASKS' button.

Searching for Documents

The **My Applications** tab allows for searching documents in the system. This example will search for an application.

To view a list of all available system applications:

1. Select **My Applications**
2. Select **Search**

To filter the list by application type, name, person(user), status, organization, or fiscal year:

1. Select **My Applications**
2. Fill in the necessary information filters(any combination)
3. Select **Search**

From the resulting list of applications, select the one to view by clicking on the **Name** of the application

My Applications
Use the search functionality below to find a specific Application.

Viewing and Initiating Available Applications

The **View Available Proposals** section is visible when an application offered by IGS is open and actively accepting submissions.

It lists all available opportunities that you may currently apply for and submit to IGS for review. To initiate a new application, select **View Opportunities** (located under the **View Available Proposals** header) and then **Start an Application**.

The screenshot shows the IGS Connect user interface. At the top left is the DFA logo and text: "Arkansas Department of Finance and Administration". At the top right is the "IGS CONNECT Intergovernmental Services" logo. Below the logos are navigation tabs for "My Home" and "My Applications". On the right side, there are links for "My Organization(s)", "My Profile", and "Logout", along with a "SHOW HELP" button. A welcome message for "Jesse" is displayed, including a "Change My Picture" link. An "Instructions" section lists tasks such as "Applying for an Opportunity", "Using System Messages", "Understanding your Tasks", and "Managing your awarded grant". Below this, a message says "Hello Jesse, please choose an option below." The main section is titled "View Available Proposals" and states "You have 1 opportunities available. Select the **View Opportunities** button below to see what is available to your organization." A red box highlights the "VIEW OPPORTUNITIES" button.

The screenshot shows the details for an "IGS Application 2017 for My Test Org". The "Offered By:" is the "Office of Intergovernmental Services". The "IGS Application Availability Dates:" are "09/13/2016-12/31/2017". The "IGS Application Period:" is "09/13/2016-12/31/2017". The "IGS Application Due Date:" is "12/31/2017". The "Description:" states "A detailed description of the application instance will be available here." At the bottom, there are two buttons: "START AN APPLICATION" (highlighted with a red box) and "NOT INTERESTED".

If you no longer wish to see a posted opportunity in your list, you may select **Not Interested** and it will be removed from your individual view.

If, later on, you decide you would like to access that opportunity again, you can click **Reset My Opportunities** to re-display all available opportunities that have been marked as **Not Interested**.

Accessing My Inbox (E-mail/System Messages)

Periodically, you may receive a message in the form of an e-mail and/or a system message from the IGS Connect system or an IGS staff member.

Messages sent as both a **System and Email Message** appear in both **My Inbox** (located on the **My Home** screen) as well as the mailbox of each e-mail address listed in each contact's **My Profile** page. Messages sent as a **System Message** will only appear inside of the **My Inbox** of the specified user accounts.

To access the contents of **My Inbox**, from the **My Home** screen select **Open My Inbox**.

Viewing E-mail/Messages

All new, unread system messages, if any, are displayed upon opening your **My Inbox**.

The following can be done in the Inbox:

- Sort messages by Priority, Sender, Subject, or Date/Time
- Select **View All System Messages** to see all messages going back to when system access was received
- View a message's priority status
- Select its subject link to view the message
- See date/time a message was sent
- Select a sender's name to reply to a message
- Check box at left of message to **Mark Checked As Read**

Searching for E-mail/Messages

To search for a message, select **View All System Messages**. From the **My System Messages** page, enter a keyword and select **Search**. A list of messages that match the search criteria will display.

The following can also be done from this menu:

- Sort search results by Priority, Sender, Subject, Date/Time, or Status
- View all messages going back to when system access was received
- View a message’s priority status
- Select a sender’s name to reply to a message
- See date/time a message was sent

Completing My Tasks (Active Tasks)

My Tasks appears on the **My Home** screen when there are tasks that require your attention. Some of the tasks may be critical (indicated by a red **Date Due**).

To access documents requiring action, select **Open My Tasks** and, in the **Name** column, click on the name of the document that you would like to view.

To access general information regarding the organization submitting the application, click on the name of the organization in the **Organization** column.

When there are no active tasks, the **My Tasks** section is will not display on the **My Home** screen.

Note: To search for and access all applications that you are assigned to but not currently able to see in **My Tasks**, see user guide section **Searching for Documents** in this manual.

The screenshot shows the 'My Tasks' section of the IGS Connect Admin interface. At the top, there is a header 'My Tasks' with a yellow checkmark icon. Below the header, there are controls for 'Export Results to' (set to 'Screen') and 'Sort by' (set to '-- Select --'), along with a 'GO' button. The main content is a table with the following columns: Info, Document Type, Organization, Name, Current Status, Date Received, and Date Due. There are two rows of data. The first row has 'IGS Application FY2018' as the document type, 'Agate Test Org' as the organization, 'IGS-2018-Agate Test Org-00056' as the name, 'Application Pre-Screening' as the current status, '2/1/2017' as the date received, and '12/31/2016' as the date due. The second row has 'IGS Application FY2018' as the document type, 'Agate Test Org' as the organization, 'IGS-2018-Agate Test Org-00058' as the name, and '2/31/2017' as the date due. A tooltip is displayed over the 'Name' column of the second row, showing 'Project Title: Test Project Title 1'. At the bottom left of the table area, there is a 'CLOSE MY TASKS' button.

Info	Document Type	Organization	Name	Current Status	Date Received	Date Due
	IGS Application FY2018	Agate Test Org	IGS-2018-Agate Test Org-00056	Application Pre-Screening	2/1/2017	12/31/2016
	IGS Application FY2018	Agate Test Org	IGS-2018-Agate Test Org-00058			2/31/2017

Test Project Title 1

CLOSE MY TASKS

5. My Organization(s)

Updating your Organization Profile

Upon being granted access to your new IGS Connect Authorized Official user account, one of the first things you will want to do is ensure your **My Organization(s)** profile is up-to-date.

This is important because much of the information from this profile can, and will, be automatically pulled into some application fields. If it is not correct, this can end with an application being submitted with incorrect information about your organization, or an application that cannot be submitted because a required **My Organization(s)** field is missing.

To update your **My Organization(s)** profile:

1. From any screen, select **My Organization(s)**
2. Update the necessary fields
3. Select **Save**

Managing Organization Members

As an **Authorized Official**, you are permitted to create additional organization users("members") with a role of **Acting Authorized Official**. Users with the Authorized Official role would grant system access to other users that need to be able to complete and submit applications on your organization's behalf.

For the most part, the **Acting Authorized Official** role has the same level of system and document access as the **Authorized Official**. Notable exceptions to this are related to the inability for AAO users to create and manage accounts within the organization, as well as the inability to manually assign other users to existing applications; both of these tasks are reserved for the higher-level **Authorized Official** role.

To view all existing users within your organization:

1. From any page, select **My Organization(s)**
2. Select **Organization Members**

The screenshot shows the 'Organization Members' page for 'Agate Test Org'. The page includes a navigation bar with 'My Home', 'My Applications', 'My Organization(s)', 'My Profile', and 'Logout'. Below the navigation bar, there are 'SAVE' and 'SHOW HELP' buttons. The main content area is titled 'Organization - Agate Test Org' and includes instructions for adding, removing, or modifying organization members. There are three tabs: 'Organization Information', 'Organization Members' (which is selected and highlighted with a red box), and 'Organization Uploads'. Below the tabs, there is a section for 'Organization Members' with instructions for administrators. At the bottom, there is a table with columns for 'Person', 'Role', 'Active Dates', 'Active Documents', 'Assigned By', and 'Modified By'. The table contains two rows of data.

Person	Role	Active Dates	Active Documents	Assigned By	Modified By
<input checked="" type="checkbox"/> AAO_Jesse	Acting Authorized Official	9/20/2016	5	King, Jesse 9/20/2016	King, Jesse 1/27/2017
<input checked="" type="checkbox"/> AO_Mr_Jesse	Authorized Official	9/13/2016	5	King, Jesse 9/13/2016	King, Jesse 9/28/2016

To create a new user for your organization:

1. From any page, select **My Organization(s)**
2. Select **Organization Members**
3. Select **Add Members**

The screenshot shows the 'Add Members' page for the organization 'Agate Test Org'. The page includes a navigation bar with 'My Home' and 'My Applications' tabs, and a sub-navigation bar with 'My Organization(s)', 'My Profile', and 'Logout' links. Below the navigation, there are 'SAVE' and 'SHOW HELP' buttons. The main content area features a 'Back' button and the organization name 'Agate Test Org'. A message instructs users to follow the instructions for adding members. There are three links: 'Organization Information', 'Organization Members', and 'Organization Uploads'. Under 'Organization Members', there are instructions for administrators and a list of steps: 1. To add a member, select 'Add Members'. 2. If a member has already added his/her information, search for the member. 3. If you need to add a member's information, select 'New Member'. For more instructions, select 'Show Help'. There are also links for 'Current Members' and 'Add Members' (highlighted with a red box). Below the instructions is a table with columns: Person, Role, Active Dates, Active Documents, Assigned By, and Modified By. The table contains two rows of data for existing members. At the bottom, there are 'Sort By' and 'Results Per Page' dropdowns, and a 'GO' button.

Person	Role	Active Dates	Active Documents	Assigned By	Modified By
<input checked="" type="checkbox"/> AAO_Jesse	Acting Authorized Official	9/20/2016	5	King, Jesse 9/20/2016	King, Jesse 1/27/2017
<input checked="" type="checkbox"/> AO_Mr_Jesse	Authorized Official	9/13/2016	5	King, Jesse 9/13/2016	King, Jesse 9/28/2016

4. Search for an existing user if you know this user is already part of a different, existing organization and simply needs access to your organization

OR

Select **New Member**

5. If choosing an existing user
 1. select the user(s) from your search results list
 2. Assign the appropriate role from the **Role** dropdown
 3. Provide the appropriate **Active/Inactive** dates for your organization access.
 4. Select **Save**.
 5. Repeat as necessary if you are unable to find all users with one search.

The screenshot shows the 'Add Members' page for the organization 'Agate Test Org'. The page includes a navigation bar with 'My Home' and 'My Applications' tabs, and a sub-navigation bar with 'My Organization(s)', 'My Profile', and 'Logout' links. Below the navigation, there are 'SAVE' and 'SHOW HELP' buttons. The main content area features a 'Back' button and the organization name 'Agate Test Org'. A message instructs users to follow the instructions for adding members. There are three links: 'Organization Information', 'Organization Members', and 'Organization Uploads'. Under 'Organization Members', there are instructions for administrators and a list of steps: 1. To add a member, select 'Add Members'. 2. If a member has already added his/her information, search for the member. 3. If you need to add a member's information, select 'New Member'. For more instructions, select 'Show Help'. There are also links for 'Current Members' and 'Add Members'. Below the instructions is a 'Person Search' field containing 'jesse', a 'SEARCH' button, and a 'NEW MEMBER' button. Below the search is a table with columns: Person, Role, Active Dates, Active Documents, Assigned By, and Modified By. The table contains one row of data for a new member being added. The 'Role' dropdown is set to 'Acting Authorized Official' and the 'Active Dates' field is set to '2/6/2017'. The 'Person' column shows a checked checkbox and the name 'AAO_Jesse'.

Person	Role	Active Dates	Active Documents	Assigned By	Modified By
<input checked="" type="checkbox"/> AAO_Jesse • Agate Test Org (Acting Authorized Official)	Acting Authorized Official	2/6/2017			

OR

If creating a brand new user:

1. Fill in the required profile fields
2. Assign a username and password
3. Assign a role
4. Select **Save & Add to Organization**

The screenshot shows the 'Add/Edit Members' form for the 'Agate Test Org' organization. The form includes the following fields and options:

- Name:** Prefix (dropdown), First (text, required), Middle (text), Last (text, required), Suffix (dropdown)
- Title:** Text field (e.g., Test AAO Title)
- Email:** Text field (e.g., jking@agatesoftware.com)
- Username:** Text field (e.g., TestAAO)
- Password:** Text field (masked with dots)
- Confirm Password:** Text field (masked with dots)
- Date Active:** Text field (e.g., 2/6/2017)
- Date Inactive:** Text field
- Role:** Dropdown menu (e.g., Acting Authorized Official)

The 'SAVE & ADD TO ORGANIZATION' button is highlighted with a red box in the top right corner of the form area.

Managing Organization Uploads

IGS Connect features an **Organization Uploads** page within your **My Organization(s)** screen that allows each organization to upload various documents of importance, such as tax forms, which may need to be reviewed by IGS staff.

To add organization uploads:

1. From any page, select **My Organization(s)**
2. Select **Organization Uploads**
3. Click **Browse** for each requested upload, then locate and select the relevant file from your available storage drives
4. Select **Save**

Updating another user's profile

An Authorized Official can update the profile information for Acting Authorized Official users within their organization by following these steps:

1. From any screen, select **My Organization(s)**
2. Select **Organization Members**
3. Select the user for which you would like to update the profile information
4. Update the necessary information
5. Select **Save**

7. Navigating, Advancing, and Managing a Document

Navigating a Document

Application Summary

The Application Summary page (also referred to as the **Document Menu**) is the main landing page that you'll be automatically directed to whenever you initiate a new application, or when you select to view an existing application from **My Applications**. It will display information highlights regarding information that is currently filled in on key fields within the document.

The information shown on this page is role-based, meaning Role X could potentially see different information than Role Y; this allows each role to see a quick "snapshot" of information that is pertinent to them, rather than sifting through information that they may not need to know or be aware of.

The information displaying on this page can also change for each role, depending on the current status of the document; this allows for more dynamic and relevant information snapshots for each role.

All document menu navigation techniques will remain consistent throughout any other documents you may have to fill out within IGS Connect, not just applications.

The screenshot displays the 'My Applications' section of the IGS Connect interface. At the top, there are navigation tabs for 'My Home' and 'My Applications'. Below these are links for 'My Reports', 'My Administration', 'My Training Materials', 'My Organization(s)', 'My Profile', and 'Logout'. An 'ADD NOTE' button is located on the right side. A horizontal menu contains icons and labels for 'Menu', 'Forms Menu', 'Status Changes', 'Management Tools', and 'Related Documents and Messages'. A 'Back' button is positioned below the menu. The main content area is titled 'APPLICATION SUMMARY' and includes the following information:

Below is a summary of the current application information

Organization Name:	Agate Test Org
Authorized Official:	Jesse AO
Project Title:	
Project Type:	Sample Project Type

Forms Menu

The **Forms Menu** is where the vast majority of the work in an application is completed. This section contains all of the forms that are necessary to complete prior to submitting your application, or otherwise advancing it further into the process flow. To edit application forms, click(or hover your mouse over) the **Forms Menu** button near the top of the screen and then click the name of the form that you wish to complete or edit.

Follow the instructions on each page and fill in the requested content. Click **Save** periodically to save any information entered. Many pages have a **Show Help** button; select it for more information about the page.

The screenshot shows the top navigation bar with the following items: Menu, Forms Menu (highlighted), Status Changes, Management Tools, and Related Documents and Messages. The Forms Menu dropdown is open, displaying a list of forms under the 'Application' category:

Status	Page Name	Note
	Application	
	Authorized Official Contact Information	
	Project Summary	
	Project Narrative	
	Financial Overview	
	Goals and Objectives	
	Employee Detail Form	
	Project Budget & Budget Narrative	

Below the dropdown, a table shows the current status of the application:

	Current Status	Period Date / Date Due
(MAIN)	Application in Process	09/13/2016 - 12/31/2017 12/31/2017 11:59PM CST

Below the table, the following application details are displayed:

Organization Name: Agate Test Org
 Authorized Official: Jesse AO
 Project Title:
 Project Type: Sample Project Type

IGS Application FY2018 Menu - Forms

Please complete all required forms below.

Document Information: [IGS-2018-Agate Test Org-00057](#)
[Details](#)

Forms

Status	Page Name	Note	Created By	Last Modified By
	Application			
	Authorized Official Contact Information		Mr. Jesse AO 1/16/2017 10:53:13 AM	Mr. Jesse AO 1/26/2017 8:16:17 PM
	Project Summary			
	Project Narrative			
	Financial Overview			
	Goals and Objectives			
	Employee Detail Form			
	Project Budget & Budget Narrative			
	Modification Document Uploads			

IGS Connect also features a **Page Save Warning**; if any field in a form is changed, a pop-up box will appear if you attempt to leave the page without saving. **Click "OK" to leave the page without saving, click "Cancel" to return to the form and save changes.**

Status Changes

The **Status Changes** dropdown allows a pre-authorized user (based on role) the ability to submit applications, or otherwise push the application to the next required status in the process flow.

Click(or hover) the **Status Changes** button, located near the top of the screen while inside of any document navigation page, to see which statuses are currently available for your assigned role. If this menu is blank, this means the user account you're currently logged in with does not hold the correct permissions to move the application out of the current status.

The screenshot displays the 'Status Changes' dropdown menu with the following options:

- APPLICATION SUBMITTED (with APPLY STATUS button)
- APPLICATION CANCELLED (with APPLY STATUS button)

The background interface includes a navigation menu with 'Menu', 'Forms Menu', 'Status Changes', 'Management Tools', and 'Related Documents and Messages'. Below the menu is a 'Document Information' section with 'Details' and 'Info' tabs. The 'Info' tab shows 'IGS Application' and a table with the following data:

Current Status	Period Date / Date Due
Application in Process	09/13/2016 - 12/31/2017 12/31/2017 11:59PM CST

Below the table is an 'APPLICATION SUMMARY' section with the text 'Below is a summary' and the following details:

- Organization Name: Agate Test Org
- Authorized Official: Jesse AO
- Project Title:
- Project Type: Sample Project Type

Access Management Tools

The **Management Tools** dropdown provides various pre-authorized roles access to useful tools that will perform certain management functions relating to the current document, such as assigning new users to the document via the **Add/Edit People** tool, or generating a PDF copy of the entire application that can be downloaded for personal records.

It is located near the top of the screen while inside of any document navigation screen; click(or hover) the **Management Tools** button to display a list of all tools that are available for the role you are currently assigned to on that document.

The screenshot shows the IGS Connect Admin interface. At the top, there are navigation tabs: Menu, Forms Menu, Status Changes, Management Tools (highlighted), and Related Documents and Messages. Below the tabs, there is a 'Back' button and document information for 'IGS-2018-Agate'. A table shows document details, including 'Info', 'Document Type', and 'Orga'. The 'APPLICATION SUMMARY' section is visible, with the text 'Below is a summary of the current ap'. The 'Management Tools' dropdown menu is open, showing three options: 'CREATE FULL PRINT VERSION', 'CREATE FULL BLANK PRINT VERSION', and 'ADD/EDIT PEOPLE'. Each option has a brief description of its function.

See below for a brief description of a few of the most commonly used management tools:

CREATE FULL PRINT VERSION: This tool will generate a PDF of the entire document with all the field content keyed by someone intact.

CREATE FULL BLANK PRINT VERSION: This tool will generate a blank PDF of the entire document, removing only the field content keyed by someone.

ADD/EDIT PEOPLE: See the ***Managing Assigned Users Within an Application*** section for a detailed description of this tool.

STATUS HISTORY: This tool will display a full history of the past statuses the document has gone through, along with the name of the user who updated the status, and the date and time that the status update happened - in order from initial status to latest status.

CHECK FOR ERRORS: This tool provides a list of page errors that can currently be found throughout the application, and also provides links to those pages, if any are found, for easy navigation and correction. All errors found with this tool must be fixed before the application can be pushed to the next status.

It is recommended to run this tool right before updating the status, in order to help ensure all potential page errors have been caught.

ATTACHMENT REPOSITORY: This tool will provide a list of all attached files that can be found throughout all pages within the application you are viewing. These documents are 'attached' to the document via any Upload fields that may be found within the application pages. By selecting the **ZIP** checkbox next to all of the documents that you wish to download, you can pack them together into one .ZIP file for easy file management.

Managing Assigned Users in an Application

The Authorized Official has administrative rights to add or remove Acting Authorized Officials to and from applications that they have created. With a higher document role comes the ability to add/remove various "lower" roles.

When an organization's Authorized Official or Acting Authorized Official initiates an application for their organization, any user who has either of those roles will automatically be added to the document as an assigned role matching their respective organization role.

Any future IGS Connect users that are added to an organization after documents have already been created for that organization will **not** be automatically added to existing applications. However, any of those new users may be manually added to an existing application throughout the entire application completion process by those of an equal or higher-level role such as an IGS staff member.

Assigning User Access to an Application

1. To add an Authorized Official or Acting Authorized Official to an application, an Authorized Official who is already assigned to the application should navigate to the appropriate application, either via **My Tasks** on the **My Home** page or by using the **My Applications** search tab at the top of any page.
2. Click the **View Management Tools** button and choose the **Add/Edit People** management tool.
3. In the search criteria box, type the name of the individual you wish to assign to the document and click the **Search** button.
4. From the Search results, select the checkbox next to the user(s) name, give a security role from the provided dropdown field, and fill in the Active Dates for the dates they should be able to access the application. Leave the Inactive date (2nd box) blank for open-ended access.
5. Click the **Save** button to add the selected user(s) to the application. The page should re-load and take you back to the list of currently assigned user(s). You should now see the new user(s) in this list, confirming they have been added to the document.

Remove a User's Access to an Application

There are two ways to remove a user's access to an existing application. To begin, click the **View Management Tools** breadcrumb button and then choose the **Add/Edit People** management tool.

1. Edit the Active start date (1st box) and/or End date (2nd box) for the user. The user will not be able to access the application before the specified Start date or after the specified End date.

The below screenshot shows one user (Authorized Official role) who was given access to the document starting on 01/13/2017, and has open-ended access (blank Inactive date). The second user (Acting Authorized Official) was given access to the document starting on 01/13/2017 as well, but will be cut off from access to the document after 02/28/2017.

Current People Assigned

<input type="checkbox"/> Person	Organization(s)	Role	Active Dates	Assigned By
<input checked="" type="checkbox"/> Mr. Jesse AO Email	Agate Test Org (Authorized Official)	Authorized Official	1/13/2017	Grant System
<input checked="" type="checkbox"/> Jesse AAO Email	Agate Test Org (Acting Authorized Official)	Acting Authorized Official	1/13/2017 2/28/2017	Grant System

OR

2. To remove a user, disable (uncheck) that user and click **Save**.

Current People Assigned

<input type="checkbox"/> Person	Organization(s)	Role	Active Dates	Assigned By

Filling Out the Application

Note to user:

Do not open multiple windows or browser tabs that are also connected to IGS Connect while filling out your application, as this can cause issues with browser cookies and result in being kicked off of your original session, as well as potentially losing your work from the original tab or window.

If you need to have multiple windows of IGS Connect active to view and utilize other activities within the system while working, please ensure you are using a separate browser session (a browser session is **not** the same as a new browser window or browser tab).

In Internet Explorer, this can be achieved by navigating to File > New Session. Both Google Chrome and Firefox require third-party browser extension tools in order to manage multiple browser sessions.

OR

1. Click (or hover) the **Forms Menu** breadcrumb button, located at the top of any document navigation screen.
2. Select the form you wish you complete. All forms that are required for the current document status will need to be completed before advancing the application; if you do not complete these correctly, you will be given on-screen errors upon saving each page to help guide you. Once you fill a form with all necessary information, click the **Save** button to lock your information to the page.

Common field types:

If an unsupported character is entered in any of these fields(i.e: a letter in a number or money textbox), or the formatting for that field is not being recognized, an on-screen prompt will appear to inform you of the required characters and formatting for that box.

Help Icon: This is a help icon that you may see next to a field or a question while filling out your application. Hovering your mouse cursor over this icon will display helpful hints regarding that field or question.

Checkbox: This is a standard checkbox used to indicate a selection (or set of selections). It can be checked or unchecked by clicking on the icon.

Radio Button: This is a standard radio button, used to indicate a singular selection(typically amongst a group of other options, but can also be alone). It can be selected by clicking the icon, and it can be de-selected by double-clicking the icon or by choosing a different answer within the same group of related options.

Textbox: This is a standard text-entry field which accepts all character types. You may also copy and paste text from an external source(such as Microsoft Word) into the textbox.

Number Textbox: This is a special textbox which accepts only number values. Some number textboxes will allow decimal values to be entered, while others only accept integers.

Money Textbox: This is a special textbox which accepts only money values, and a separating period for cents where required. In most cases, you may enter up to 2 decimal places for cents; however, not all money textboxes will accept decimal (cent) values – only full dollar amounts. Any attempts to enter a decimal money value in a money field that requires full dollar amounts will result in the auto-rounding of the value to the nearest whole number. If you enter an incorrect character type or fail to follow the required format of the field, an on-screen prompt will display to inform you of the required format for that box.

Percentage Textbox: This is a special textbox which accepts only percentage values in the form of numbers, either whole or decimal (typically up to 2 decimal places). Operates similarly to that of the money textbox.

 %

Date Selection Textbox: This is a special textbox which accepts only a date in MM/DD/YYYY format. When this field has been selected, a popup calendar will typically appear from which a date can be selected, using the Month navigation arrows, and automatically filled in. You may also manually key in(or copy/paste) a date as long as it follows the MM/DD/YYYY format.

March, 2017						
Su	Mo	Tu	We	Th	Fr	Sa
26	27	28	1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30	31	1
2	3	4	5	6	7	8

Today: March 3, 2017

Email Address Textbox: This is a special textbox which accepts only text in the format of an email address. i.e: joe@testwebsite.com.

Zip Code Textbox: This is a special textbox which accepts only zip codes in the formats of "#####" or "#####-####".

Phone Number/Fax Number Textbox: This is a special textbox which accepts only numbers in the format of a phone number. When presented with a block of 7 digits, the field will auto-format the block into a formatted US phone number. You may also manually type the phone number with the correct format.

Dropdown Selections: This is a static set of selections from which you may choose one of the available options by clicking the dropdown arrow and the choice you'd like to make.

Document Upload: Document Upload fields will allow you to upload a document to the system, which will then be able to be viewed and downloaded by anyone that views the application, including IGS staff. Click "Browse" to find and select the file from your computer. The file will only be saved to the form once the form itself has been saved/re-saved.

To delete a file that has been uploaded, click the **Delete** checkbox and re-save the page.

- *If any sensitive information is visible in your document that should not be visible to IGS staff members, please take necessary precautions to redact the information before uploading.*
- *If you attempt to upload a file, and upon page save the file disappears(is not saved), there may be an issue with file type compatibility. Please contact your program manager to report the issue.*

Browse... DELETE
5564-ATestDocument.txt

Checkbox: This is a standard checkbox, which will be used to indicate a single selection or a set of selections. It can be checked or unchecked by clicking on the icon.

3. Select the **View Global Errors** button on any form to see any errors or incomplete pages detectable by the system for that application.

4. To advance the application, click(or hover) the **Status Changes** button, located near the top of your screen while on any of the document navigation screens, and select the **Apply Status** button under the relevant status name.

The screenshot shows a navigation bar with three items: 'Status Changes', 'Management Tools', and 'Related Documents and Messages'. The 'Status Changes' item is highlighted with a mouse cursor. A dropdown menu is open under 'Status Changes', titled 'Status Changes'. It contains two sections: 'Possible Statuses' and 'Current Status'. Under 'Possible Statuses', there are two entries: 'APPLICATION SUBMITTED' with an 'APPLY STATUS' button below it, and 'APPLICATION CANCELLED' with an 'APPLY STATUS' button below it. The 'Current Status' section has a blue header and shows 'Application in Process'.

You may also encounter on-screen errors when attempting to advance an application's status; this happens when all page requirements are not met.

The error will provide you with a hyperlink to the page(s) in question, for easy navigation and correction. When you believe you are finished fixing the remaining page errors, simply repeat **Step 4**.

If you experience any issues that cannot be remedied by reviewing this manual, please contact IGS for further assistance.
